Python is the language of the Python Interpreter and those who can converse with it. An individual who can speak **Python** is known as a **Pythonista**. It is a very uncommon skill, and may be hereditary. Nearly all known **Pythonistas** use software initially developed by **Guido van Rossum**.

Early Learner: Syntax Errors

- We need to learn the **Python language** so we can communicate our instructions to Python. In the beginning we will make lots of mistakes and speak gibberish like small children.
- When you make a mistake, the computer does not think you are “cute”. It says “**syntax error**” - given that it knows the language and you are just learning it. It seems like Python is cruel and unfeeling.
- You must remember that you are intelligent and can learn. The computer is simple and very fast, but cannot learn. So **it is easier for you to learn Python than for the computer to learn English...**

Talking to Python
